MESSAGE CENTER

As a Budget Billing customer, your payment amount is the same each month. However, if you add a hot tub, electric space heater or other appliances, your energy usage will increase without you noticing it. Watch how much you use from month to month at "Total kWh" in the "Your Current Electricity Charges" section on page two of your bill. If the amount is consistently higher than in the past, consider calling us to reevaluate your Budget Billing payment amount so you don't have a big increase at the end of the Budget Billing year in August.

Bill explanation FYI: On the "Your Budget Bill" box on page two, the "Budget Bill Balance" is how much you would owe PNM if the amount is positive and if Budget Billing was canceled before paying this bill. If the amount is negative, that is how much PNM would owe you. Energy usage for most customers varies because of seasonality and other reasons, so the Budget Bill Balance can change throughout the year. Thanks for being a Budget Billing customer.

Baseball season starts in April. Check your March Energy Works for a buy 1 get 1 FREE offer to see the Albuquerque Isotopes!

Windy season is upon us and strong winds can cause trees or poles to fall into power lines. Stay away from downed power lines! Always assume that all lines are energized. If you encounter a downed line, please call PNM at 1-888-DIAL-PNM or call 911 immediately.

Recycle your old fridge or freezer and get \$50. We haul it away for free, you save energy and money. Learn more inside this month's Energy Works.
