**DIRECT TESTIMONY OF  
ARIN R. APODACA  
NMPRC CASE NO. 25-00\_\_\_\_-UT**

1   **Q.     Please explain the change in the revenue requirement for the PNM-owned solar**  
2       **facilities in 2026 compared to 2025.**

3   **A.     In general, the estimated annual revenue requirements for PNM-Owned Solar Facilities**  
4       **is expected to increase between 2025 and 2026. These increases are primarily due to**  
5       **expected higher operating and maintenance expenses and increased weighted average**  
6       **cost of capital (“WACC”), mostly offset by declining rate base caused by normal,**  
7       **ongoing depreciation. PNM Exhibit ARA-3, PNM Exhibit ARA-4, PNM Exhibit**  
8       **ARA-5, and PNM Exhibit ARA-6 present the calculation of the 2026 annual revenue**  
9       **requirement for the PNM-Owned 2011 Solar Facilities, PNM-Owned 2013 Solar**  
10      **Facilities, PNM-Owned 2014 Solar Facilities, and PNM-Owned 2019 Solar Facilities,**  
11      **respectively. The costs of registering and retiring RECs in WREGIS are also included**  
12      **in the 2026 revenue requirement for these facilities.**

13

14   **Q.     Why does PNM only include WREGIS fees in the revenue requirement for the**  
15       **PNM-Owned 2015 Solar Facilities and the Arroyo, Jicarilla, San Juan, Atrisco,**  
16       **and Quail Ranch solar projects?**

17   **A.     Pursuant to paragraph 2 of the stipulation approved by the Commission in Case No.**  
18       **14-00158-UT, PNM recovers the majority of costs associated with the PNM-Owned**  
19       **2015 Solar facilities through base rates. PNM has historically recovered the WREGIS**  
20       **fees on the RECs associated with these facilities through the renewable rider rather than**  
21       **base rates because these costs are necessary for demonstrating RPS compliance.**  
22       **Therefore, for the PNM-Owned 2015 solar facilities, the WREGIS fees are included in**  
23       **the Rider 36 annual revenue requirement.**

**DIRECT TESTIMONY OF  
ARIN R. APODACA  
NMPRC CASE NO. 25-00\_\_\_\_-UT**

1 Similarly, PNM is requesting to recover only WREGIS fees associated with the Arroyo,  
2 Jicarilla, and San Juan 1 solar projects (approved in Case No. 19-00195-UT), the  
3 Atrisco Solar project (approved in Case No. 21-00215-UT), and the Quail Ranch Solar  
4 Project (approved in Case No. 23-00353-UT) in this case. PNM is including the  
5 associated WREGIS fees in the Rider 36 revenue requirement because the RECs  
6 generated from these projects are necessary to demonstrate RPS compliance.

7  
8 **Q. Please explain the change in PPA revenue requirements between the 2025 Rider**  
9 **and the 2026 Rider.**

10 **A.** The amounts included in the 2026 rider revenue requirement are based on PNM's  
11 current projections of purchases under the PPAs. These projections can be found in  
12 PNM Exhibit ARA-7. La Joya II Wind and New Mexico Wind Energy Center PPAs  
13 are expected to have lower production compared to 2025. The revenue requirement for  
14 Red Mesa wind is expected to decrease due to projected lower production, despite the  
15 annual price escalation included in the PPA agreement. The Lightning Dock  
16 Geothermal PPA revenue requirement is expected to increase in 2026 due to annual  
17 price escalation included in the PPA agreement, partially offset with lower projected  
18 production. Please refer to PNM witness Gutierrez's Direct Testimony for further  
19 discussion of the projected MWh of all PPA facilities.

20  
21 **Q. Please describe the change in the DG REC Purchase amounts between the 2025**  
22 **Rider revenue requirement and the 2026 Rider revenue requirement.**

1     **A.**     The amounts included in the 2026 Rider Revenue Requirement are based on PNM's  
2             current projections of DG REC purchases. As seen in PNM Table ARA-1, DG REC  
3             purchases in 2026 are projected to be \$3,007,334 lower compared to 2025. The DG  
4             REC forecasts are described by PNM witness Gutierrez. PNM Exhibit ARA-7 presents  
5             the estimated annual revenue requirement for the DG REC purchases.

**7 Q. Has PNM included any REC costs related to Community Solar?**

11

17

## 19

21     **A.**     Pursuant to Paragraph 8 of the Recommended Decision approved by the Commission  
22             in Case No. 12-00007-UT, PNM will file a report by February 27, 2026, that will  
23             include the following items:

**DIRECT TESTIMONY OF  
ARIN R. APODACA  
NMPRC CASE NO. 25-00\_\_\_\_-UT**

- 1           1. Reconciliation of actual 2025 Rider revenues to actual 2025 procurement costs, and  
2           2. True-up of projected costs included in the 2026 Rider with actual costs to the extent  
3           available, including an update to the 2025 year-end WACC as shown in PNM  
4           Exhibit ARA-8, based on the 2025 year-end WACC. PNM will propose a true-up  
5           to the rider based on the amounts calculated above.

6

7   **Q.    Please explain the earnings test that was put in place in Case No. 12-00007-UT.**

8   **A.**Pursuant to Paragraph H of the Recommended Decision in Case No. 12-00007-UT,  
9           PNM will file a pro forma cost of service based on actual accounting records for the  
10          2025 calendar year by April 1, 2026, that will reflect appropriate cost of service  
11          adjustments in accordance with the final order in PNM's most recent general rate case,  
12          Case No. 24-00089-UT. If PNM's retail earned Return on Equity ("ROE") exceeds the  
13          currently approved ROE by 50 basis points or more, the 2026 Rider will be adjusted to  
14          refund the amount of PNM's earnings in excess of 50 basis points above its authorized  
15          ROE.

16

17

18 **Q.    Does this conclude your direct testimony?**

**A.**Yes.
